1. Introduction

Regional Regulation no. 3 Bogor Regency Regional Regulations of 2013 Concerning Social and Environmental Responsibility" aims to establish guidelines for implementing social responsibility and environmental protection in the jurisdiction of the City of Bogor. This regulation covers various aspects such as waste management, air quality, water resources, public health and community empowerment. One of the main objectives of this regional regulation is to encourage the creation of a clean and healthy environment by regulating waste disposal methods and incentives. Recycle. This regulation requires businesses and organizations to classify waste at its source and process it properly. Additionally, these regulations require the establishment of waste management facilities and regular inspections to ensure compliance with these regulations. Another important aspect of this Regional Regulation is the emphasis on public health. This regulation sets out guidelines for maintaining cleanliness in public spaces, combating vector-borne diseases and ensuring access to drinking water and sanitation facilities.

Furthermore, it emphasizes the importance of community participation in maintaining public health through educational campaigns and community initiatives. Furthermore, the Regional Regulation contains provisions related to air quality management. This regulation sets limits on emissions from industrial activities and traffic sources to reduce the level of air pollution in the city.¹ In addition, it also encourages the use of renewable energy sources and energy saving measures to minimize greenhouse gas emissions. Lastly, this regulation emphasizes community empowerment through participatory decision making and capacity building programs. This encourages local communities to play an active role in managing their own affairs related to social welfare, environmental protection and disaster risk reduction. This approach not only increases the sense of ownership but also ensures effective response to local needs.
